## Half-Cent Sales Tax At Pontoon Beach Ok'd

### Village Board Also Names 3 Policemen, Building Inspector

A source of income for the moneyless village of Pontoon Beach will be a half-cent sales tax, collection of which was started once the village's initial ordinances are published in book form.

The sales tax measure was adopted at Thursday evening session of the new village board, at which the trustees approved payment of a \$266 election bill to the county as soon as we get some money.

Immediate approval of the sales tax law was given as the board suspended its rules and customary three readings. The tax will be imposed on all persons engaged in selling tangible property at retail. The proceeds will be paid to the state and then turned over to the village treasury.

**Building Code Proposed**

In other action at the meeting, a building code ordinance was submitted to the board for approval, but after a first reading, it was discovered that the code contained no regulations for electrical wiring. The ordinance was referred to the ordinance committee for further study and amendment.

An ordinance creating the position of building inspector to enforce the proposed building code was approved by the board. President Theodore St. John named Lloyd Miller to the job and his appointment was confirmed.

Miller is an electrician and is familiar with construction. He was pointed out by the board.

The procedure for putting townsmen in Pontoon Beach under jurisdiction of the village was outlined by Atty. Robert Matson. He recently conferred with county officials and was advised the village could issue liquor licenses after the taverns' current county liquor licenses expire on Dec. 31.

## Alton Man Shot In Traffic Mishap By Granite Cityan

An Alton man was shot and seriously wounded at 2:05 a.m. yesterday at Seventh street and Madison avenue, Madison, and a Granite City man admitted the shooting today.

Wounded in the head was William Dinkins, 33, of 2010 Humbert street, Alton. He was taken to St. Elizabeth Hospital for emergency treatment and was transferred to Alton Memorial Hospital where a spokesman reported today that he had spent a fairly good night.

The bullet entered his left cheek and came out through the neck.

A warrant was to be filed by the state's attorney's office against Guy R. Wallace, 23, of 2829 Wilson avenue, who told police during questioning this morning that he shot in self-defense. Police said he indicated he would sign a statement later today.

The shooting occurred after Dinkins' car was bumped in the rear by an old black auto, according to Clarence Ballinger, 29, of Alton, a passenger in the car.

Car Pulls Alongside

He told authorities that as Dinkins came to a stop, the other car pulled alongside him when Dinkins got out to inspect the damage, Wallace came out, immediately drew a gun and fired.

The other car was identified, and the driver was arrested. It rested 15 minutes later in a tavern at Fourth street and Madison avenue.

The other two persons in Wallace's car were held overnight for questioning and were released today. They are Shelby Wallace and Robert Baker, both of Granite City.

It was doubtful at first which of the two men did the shooting. The gun, a .38-cal. revolver, still was not found early this afternoon. Because of his condition, police were unable to talk to Dinkins.

According to Ballinger, Dinkins saw a person and re-entered his auto, but was shot before he could drive away. Ballinger said police felt the Dinkins was an A. O. Smith Corp. employee, and Mrs. Betty Dinkins, 28, his wife, were enroute to Brooklyn when the incident occurred.

Madison police headquarters was crowded during the day after yesterday's shooting as police questioned possible suspects and witnesses. Police Chief Stanley Wojcik was re-called from vacation to lead the investigation.

## 13 Persons Hurt In 23 Crashes On Weekend

### Two Youngsters Among Victims; Four Hurt On McCambridge Avenue

Injuries were suffered by 13 persons in nine of 23 traffic accidents reported to Quad-City area authorities over the weekend.

Among the injured were two small youngsters who were victims of separate mishaps. Four persons were hurt Friday in a two-auto crash on McCambridge avenue.

Timothy Bahr, three years old, is in critical condition at Children's Hospital, St. Louis, after being run over by an auto yesterday afternoon. He was a relative of a relative at 2903 Warren avenue.

The boy, son of Mrs. Alton Bahr, 2703 Kirkpatrick Homes, was given emergency treatment at St. Elizabeth Hospital and was admitted there before being transferred to St. Louis.

Mrs. Bahr's cousin, William Sumner, 32, of 2903 Warren avenue, told the Press-Record that he was driving the auto and was driving into the yard about 1 p.m. "I didn't see the boy playing in the yard. My view was blocked by tall flowers growing outside the fence," Sumner said.

The boy suffered abrasion to his back, legs and face and underwent x-rays. Mrs. Bahr said today her son was on the critical list.

Treated at the hospital Saturday evening was Mark Milton, 24-year-old son of Mr. and Mrs. Adams street, who reportedly was hit by an auto in front of his home. Police had no report of the mishap and the family could not be reached.

**Four Hurt In Crash**

Arthur Neidhart, 43, of 1889 Second street, Madison, and his two children, Terry, 11, and Cathy, 3, incurred slight injuries Friday afternoon when the car in which they were traveling was struck from behind by an auto driven by Cletus Schroeder, 34, of Germantown, Ill.

## 18 DAYS WITHOUT A QUAD-CITY TRAFFIC DEATH

The last traffic death in the Quad-City area occurred on June 12, 1963.

## Auto Sighted Far Out In River Is Pulled To Shore

A tow truck and long cable were used Saturday to remove from the Mississippi River an auto first thought to have carried one or more occupants to death. It was empty when pulled to the river bank, indicating that its driver had reached safety.

While the auto had no license plates, investigation by Venice police showed that it had been stolen Thursday from in front of a tavern in East St. Louis and was owned by Grover Shelton of that city.

It was first noticed by Union Electric employees at 10:55 p.m. Friday, 200 feet offshore and 150 feet north of the McKinley Bridge. Apparently caught in underwater piling which serves to break up wave action, the white 1961 compact car was facing skyward, with part of its grille and hood protruding above the water. Coast Guardsmen were summoned and Venice firemen provided lighting at the scene, remaining on duty until 2:45 a.m. Saturday.

A decision was made to postpone the salvage until daylight, and at 6:30 a.m. it was noted that the car had slipped down river, possibly due to a large passing vessel. Only the headlights were visible, and a buoy was used to mark the scene, with the cable snub attached to a front wheel. The car became snagged several times, but efforts to remove it proved successful at 10:30 a.m. Saturday.

Police said skidmarks indicated it had gone into the river from a concrete boat launching ramp, being carried downstream several hundred feet and farther into the river by the current.

It could not be established whether anyone was inside the auto until it was brought to shore. Why it was driven into the river after apparently being used for "joy rides" was not determined.

## Burglars Steal 70 Packs Of Cigarettes

A burglar who pushed aside a piece of plywood on a door looted Rita's Cafe, Niedringhaus avenue and Chestnut street, last night. Taken were 70 packages of cigarettes and an undetermined amount of change from a cigarette machine.

Police believe the thief knew the plywood was in the door where a window glass was missing. The plywood was pushed enough to permit the thief to reach inside and unlock the door.

Approximately 900 feet are being added to the harbor frontage for use by both the public wharf and the section leased to Granite City Steel Co. The agency had previously obtained an increased lease figure from the steel company.

## Bi-State Harbor Income To Rise With Expansion

### \$29,297 Low Bid For Access Road For Port Authority

The lowest of five bids submitted for the access roadway at the canal harbor side of the City Regional Port Authority was by A. H. Seebold Co. with a figure of \$29,297, it was announced Friday.

The bid was accepted by the board members meeting in special session, subject to ratification at the July 8 regular meeting.

Other bidders were General Contracting Co., \$35,051; G. H. Stenberg & Co., \$41,866; Modern Asphalt Co., East St. Louis, \$39,987; and J. Keeley Construction Co., East St. Louis, \$38,043.

John Barron port manager said that with ratification July 8, work on the roadway should start about July 10.

The 300-foot asphalt road will extend from the top of the canal levee at the end of Rock road and will proceed down the levee on the canal side to the north end of the canal harbor where a multi-million dollar development is planned by the Port Authority for truck, rail and barge loading and unloading facilities.

### Pollution 3rd Vote

(Continued from Page 1.)

bitter opponent of the resolution, relinquished any recommendation last week. Moerlein made the motion for second reading.

Explaining the prolonged method, Moerlein said he had been told by Mayor Davis that he would have to veto the resolutions if they were approved. Davis had told a Press-Record reporter before last Monday night's session that while he did not approve fully of the committee's recommendations, he probably would go along with them because of the pressure by the Sanitary Water Board.

"He never did tell me that," Moerlein said Friday. The Pollution Study committee chairman added that he was certain the council would not have given an 11-vote approval of the resolutions last week. "This is an important issue," he added, explaining that he wanted to be certain the pollution abatement program would proceed as required by the state without being stopped by the council.

The aldermen said last Monday that only nine votes would be needed for approval. "I'm not certain about that on a second reading, and that's why I decided to extend it to the full three readings," Moerlein said.

Mainstays of the opposition have been Nomm and Bartosik, both of whom had served on the old Pollution Emergency committee. They have received support by Bergfield and Basarich. The other aldermen favor the hiring of the local firm of Sheppard, Morgan & Schwaab as engineers and the Chicago firm of Kohnard, Showers & Murray as fiscal agents.

The exceptions are Skubish and Boyd, who have not yet voted on the two resolutions. Skubish has been absent from both the special meeting when the resolutions were introduced and last week's meeting. Boyd missed the special meeting and

was late in arriving at last week's session.

Local Firm Logical Choice Moerlein pointed out to the Press-Record that several of the six engineering firms interviewed mentioned that the local engineering firm of Sheppard, Morgan & Schwaab was a logical choice because of the firm's familiarity with sewer conditions in Granite City.

"Also, they will do the job for minimum engineering fees without any added charges for preliminary work," the chairman said. The lineup for tonight's council session is not known, exactly. Nomm has announced he would miss the July 1 session. McGee left for vacation following last week's meeting, but said he could possibly return if needed. He also was on vacation, but may be present tonight. Sternberg, who was attending a convention last week, is expected to be present tonight. McGee is a member of the special committee, and both Rutledge and Sternberg have voted approval of the two resolutions.

Committee's Recommendation The Special Pollution Study committee's recommendation to the council follows:

"1. The immediate development and construction of sewage treatment facilities. "It is also believed that some relief to flooding conditions can be achieved by constructing at this time some interceptor sewers in addition to the sewage treatment plant.

"Such a program, we believe, will have the following advantages:

"1. Require a minimum capacity sewage treatment plant.

"2. Provide outlets for industry effluent water which if properly handled by industry will not require treatment.

"3. Be the first stage of an eventual overall solution to Granite City's drainage problems.

"It is recommended that the city should at this time also consider facilities to provide the following:

"1. Added Sewer Facilities. "The immediate development and construction of sewage treatment facilities from the Nemo area.

"2. Facilities to provide sanitary

sewers for all presently developed areas within the city limits. (Areas mentioned are North Granite, Nevada avenue, and the western ends of Cuyler and Denver streets where presently there are no sanitary sewers.)

"In view of the fact that the city now has an agreement with Sheppard, Morgan & Schwaab for engineering services, and also that Sheppard, Morgan & Schwaab have accumulated in the past a great deal of information, it will be necessary for them to proceed with detailed planning.

"Since this firm has already been paid for their preliminary studies, no additional costs for preliminary studies are necessary, assuming the existing agreement is reconfirmed.

"Accordingly, the committee is submitting herewith the form of the resolution, which if passed by the city council, will direct Sheppard, Morgan & Schwaab to proceed with engineering services for the improvements needed now in accordance with the terms of the agreement now in force.

Financing Recommendation "The committee recommends that consideration be given to financing the needed improvements by a combination of general obligation bonds and sewer revenue bonds within the following general guide lines:

"1. Cost of sewage treatment facilities to be financed by sewerage revenue bonds.

"2. Cost of sewers to be financed by general obligation bonds.

"The committee recommends that the firm of Nongard, Showers & Murray be employed to act as fiscal agents to prepare the necessary documents, forecasts, rate schedules, bond prospectus and such other financial documents as may be necessary in order that the city may receive competitive bids for sale of the necessary bonds.

"It is the recommendation of the committee that any charges adopted for sewer service be a flat rate per residential unit.

"This committee respectfully requests that a certified copy of this report and of the resolutions complying with this report be sent to the Illinois State Sanitary Water Board.

### Bi-State Harbor

(Continued from Page 1.)

The St. Louis Airport Commission has a meeting scheduled for July 9. Parks Airport, containing about 500 acres and an additional 300 acres are included in the proposed project. The Southwestern Port Authority, which has options on the former airport area, is acutely in need of a secondary airport to relieve crowded conditions at Lambert Field.

Pointing out that the St. Louis area is acutely in need of a secondary airport to relieve crowded conditions at Lambert Field, Chairman Edwin J. Clark, chairman of Bi-State's Airport Commission, emphasized that federal and state aid make it possible to acquire a 3,500-acre field for a net cost of around \$2 million.

Transit Unit Continued Operations of the 15 transit systems which Bi-State Agency acquired April 1, show that revenue of \$4,000,000 for the first two months. Operating expenses were \$3,800,000, debt service and depreciation, \$783,000, and fund requirements, \$830,000, leaving a balance of \$203,000 for additional working capital and contingencies. The balance compared with a previous estimate of \$105,000.

With excellent cooperation from the various unions that had separate contracts with the 15 transit systems, all employees have been integrated into a single union except for two small systems, the St. Louis and St. Charles.

Seniority has been preserved and uniform wages and benefits exist. The union is reported by Clark, chairman of the Transit Committee of Bi-State.

Most of the employees now belong to District 788, Associated Association of Street, Electric Railway and Motor Vehicle Employees.

Other unification and streamlining measures are being taken by Transit Service Corp., operating managers of the transit system, and approved by Bi-State.

Reduction in operating divisions from 16 to 8, five in Missouri and three in Illinois—Alton, East St. Louis and Belleville.

Realignment of routes and equalization of fares on certain Missouri routes to improve service and eliminate duplication that had previously existed between old St. Louis Public Service and some of the other bus systems in St. Louis and St. Louis County.

Authorization for TSC to dispose of 186 obsolete buses, four parcels of real estate no longer needed, and various items of scrap and worn out material.

Public bids will be sought in each instance except on the scrap which accumulates periodically and is disposed of at the rate of \$350 to \$400 monthly. Purchasers of the buses must agree not to use them for competitive transit operations within the Bi-State area. The real estate includes garages and land in Caseyville, East St. Louis, Alton and St. Louis.

Permission for three TSC executives to have limited authority to execute agreements to lease or rent property used for bus loops, shelters and toilet facilities along Bi-State routes, primarily for employees.

Re-route For Traffic Plan In order to conform transit operations to the one-way street plan recently adopted by St.

Louis for Franklin avenue and Delmar blvd., the Wellington street car line will be converted to bus operation, the Hodiamont cars will be re-routed, and Broadway, instead of Fourth street, will be used for looping of Delmar and University street cars between Olive and Pine streets, TSC reported.

Cost of the track work was estimated at \$70,000, and TSC was instructed to proceed. Meanwhile, Bi-State will negotiate with St. Louis on the basis since two public bodies are involved and it would not have been necessary except for St. Louis' one-way street designation.

A contract with the St. Louis Postoffice, similar to previous years, was authorized by the commissioners. Amounting to \$77,000 a year, it provides free bus rides to postal employees in uniform.

The Bi-State meeting, which was open to the press and public, attended by nine of the 10 Illinois and Missouri commissioners, J. F. Schmidt, of Waterloo, was hospitalized by a stroke the week before.

Chairman Leo J. Fisher announced the agency would be in a few days to the Paul Brown building, where larger quarters have been obtained at a lower rate. There was only standing room for the five reporters and photographer present Thursday at the office at 215 Olive st.

Legislature Closes With Riotous Discord

Thirty-five Republican state senators criticized Gov. Otto Kerner for dissolving the 1963 session of the General Assembly Friday night during a "whoop and holler" setting but acted on several measures before adjournment.

The senate approved a \$70,000 appropriation for salaries of state officers and legislators for the next two-year budget period and left undecided the question of senate appointments to the budgetary commission, which insures continuation of the terms of present members.

Only Republican senators were on hand Saturday as Democratic members of the senate and GOP and Democratic house members went home Friday night on orders of the governor.

The question of reapportionment of Sen. Everett R. Peters (R, St. Joseph), as chairman of the Kerner commission, who has held the post for 16 years, caused the furor. A combination of House Republicans and Democrats tried to unseat him.

The final session was interrupted with periods of barbaric shop singing by senators and guests, and one Democratic senator took time to inform the senate on the progress of the Chicago White Sox — Cleveland Indians baseball game.

# St. Clair Rolls On

## Hearts and Mercer On Winning End Of One-Run Inter-City Decisions

It was a long, hot afternoon Sunday for the Allwood Merchants of the Inter-City baseball league, who came out on the short end of a 2-23 score in a game with Moose Lodge of East St. Louis, but remaining 1-1 teams perspired through four one-run decisions which included victories by Mercer and Sacred Heart, league representatives from Granite City.

Sacred Heart nipped Carpenter at Wilson Park by a 6-5 count. Bob Hoffek driving in the decisive run with a single in the bottom of the ninth.

Mercer nipped the Red Sox at Maryville, where Vic Buehler's sacrifice fly in the top of the ninth broke a tie game and led to a 9-8 win for the GC team.

Troy also scored a tie-breaker in the ninth to edge Collinsville 4-3, and the slate of one-run victories was completed when Blue division leader St. Clair Heating nipped nearest challenger Poca-honias 3-2 on the strength of a two-run rally in the eighth.

**Three-Game Lead.** St. Clair opened up a three-game lead in the Blue division as the East St. Louis team hung up its 11th straight win.

The Mercer win strengthened that team's hold on third place and improved the club record to 6-4.

The Hearts held their Red division

vision third-place tie with Troy. Both clubs are 4-6 behind Maryville (5-3) and leader Moose Lodge (6-4).

**Rains Goes Distance.** John Rains (3-2) went all the way here yesterday for the Hearts, giving up 10 hits while his teammates collected 15 off starter and loser Don Florini and reliever Jim Blackledge.

Carpenter broke to a 4-0 lead, but the Hearts tied it with four runs in the bottom of the fourth. Sam George's triple drove in Pete Burdige with his first run and Steve Schardan doubled in two more after Bob Hoffek had drawn a walk. Bob Burns also walked and Rains plated the fourth run with a sacrifice fly.

The Hearts made it 5-4 in the sixth on singles by Rains, Mike Stuess and Clarence Jones. A single, sacrifice and base hit by Babe Thomas gave Carpenter the tying run in the top of the ninth, but consecutive singles by Frank Hildegarde and Hoffek plated the winning run when one out in the bottom of the ninth.

**Early Homer.** Mercer came from behind three times yesterday to win at Maryville, after getting away to a fast start on Don Crabtree's two-run blast and a solo homer by Charles Johannigmeier in the top of the first.

Marv Brokaw started shakily for Mercer, walking two, hitting one and giving up two batters which coupled with two errors for a four-run Maryville first.

Johannigmeier's triple and a ground out in the third tied the score at 4-4, but a walk and Roy Kubieck's double put Maryville ahead 5-4 in the same inning. The hosts stretched it to 6-4 in the fourth on three walks and a fielder's choice.

A walk, single by Pack Parker and Johannigmeier's infield out plated Mercer's fifth run in the fifth, and another rode home on Glen Hoffman's triple in the sixth.

**Johannigmeier Winner.** Five walks gave Carpenter its final two runs and an 8-6 lead in the seventh, when Johannigmeier relieved Brokaw for Mercer. But a walk to Jim Pitts, Brokaw's double and Hoffman's triple tied the score in the eighth after two were out.

Singles by Crabtree and Johannigmeier came in front of Buehler's run-scoring sacrifice in the ninth, and Johannigmeier made the winning run in the ninth to pick up the victory.

Madison Baptist powered its way to a 23-7 Church Slow Pitch softball win over Niedringhaus Methodist at Wilson Park Friday night, banging out six home runs in a game which included 44 base hits.

In an entirely different type of game in the same league, Cedar View Baptist continued its fast pace in the "B" division by nipping Community Heights Assembly of God 4-3 in a contest where the home run also played an important role.

Friday's final league contest went to Bethel Community by a 12-4 margin over Venice Methodist. St. Mary's was awarded a 7-0 forfeit win over defunct St. Elizabeth.

**3 Hours For Page** Bob Page had a field day at the plate for Madison Baptist, getting three of his team's homers and driving in six runs with five hits in five trips.

Joining the hammer parade for the winners were winning pitcher Frank Eaves, Bill Page and Charles Stanfill, each of whom hit one. Eaves and Bobin hit the first.

**Nine-Run Frame** Bethel Community broke on top of Venice Methodist with a nine-run fifth inning on five hits and four Venice miscues.

Big blows in the frame were struck by Bob Walsh, who doubled home two runs, and Bob Dawson, who tripled in another.

## Rome & Roy's Stays In Contention; Union Starch Upends Credit Union

Rome & Roy's remained in a virtual tie for first place in the Classic Softball league "A" division here Thursday night, thanks to one big inning in which the club scored all of its runs in a 5-3 verdict against Spengler-Dawes at Wilson Park.

And Union Starch ended a three-game losing streak in the night's first game, pushing around the only run of the contest in the bottom of the ninth to surprise Granite City Steel Credit Union 1-0 and drop UC to last place in the "A" division.

**Antoff Ends Duel**

Norman Martinez's single and stolen base, an infield out and Senny Antoff's run-scoring single in the ninth broke up the fine pitchers' duel between winner Bailey Walker and loser Jack James Walker allowed four hits and James six.

The Starchmen climbed out of the cellar in the "B" division with their win, while Rome & Roy's, now 4-1, remained a few percentage points behind "A" Rome & Roy's — 4-1 — Spengler-Dawes — 2-2 1/2.

Rome & Roy's scored five times in the fifth on three hits, coupled with three errors and a walk. Winning pitcher Neal Melton drove home two runs with a two-out single, and RBI hits earlier came off the

bats of Floyd Kempf and Ray Huff.

Jim Davis' double and a sacrifice fly with one out by Steve Schardan gave Spengler-Dawes a 1-0 lead in the first. Larry Diak doubled in the losers' second run in the third, and then scored his team's final marker in the sixth when he singled, moved up on two walks and crossed the plate on Frank Hildegarde's sacrifice fly.

**Idle This Week**

Melton and losing pitcher Carol Fingley each gave up four hits. On July 9 Rome & Roy's will get the opportunity to apply even more pressure to the "A" leaders when the club goes against Madison Bowl in the first of two Classic games. Spengler-Dawes and Union will meet in the second game.

The league will be idle this week while the park district's invitational tournament is in progress.

**MRS. ALAN K. CUTLER.** Her wedding was an important event of the summer season Sunday evening at First United Presbyterian Church. A daughter of Mr. and Mrs. Gerald Walters of State street, she is the former Jacqueline Mae Walters.

## Miss Jacqueline M. Walters And Alan Keith Cutler Wed

Bouquets of white chrysanthemums, snap dragon and wood-wardia decorated the front of the Presbyterian Church, 22nd street and Delmar avenue, for the evening wedding Saturday of Miss Jacqueline M. Walters and Alan Keith Cutler. Burning candles in candelabra illuminated the sanctuary and preceding the double-ring ceremony performed by Rev. David B. Maxton Roy Hill Jr. of Madison sang "If I Could Tell You" and "Ich Liebe Dich," accompanied by Kenneth MacClatchey, organist, who played the traditional wedding march and recessional.

The bride is a daughter of Mr. and Mrs. Gerald G. Walters, 2568 State street. Mr. Cutler's parents are Mr. and Mrs. Elmer F. Cutler of 1103 West Vine street, Taylorville, Ill.

For her wedding Miss Walters wore a gown of white gossamer silk organza. The tight bodice was frosted with a rose pattern of Chantilly lace. The same delicate sprays adorned the front of the skirt and were repeated the length of the chapel train. A silk organza rose and seed pearls held the bride's elbow-length veil of tulle and she carried a semi-cascade bouquet of stephanotis and cocktail orchids. Mr. Walter escorted his daughter and gave her in marriage.

Miss Nancy Fleishman was maid of honor, and the bridesmaids were Miss Doris Cutler, a sister of the bridegroom; Miss Karen Kalemoff; the latter of LaSalle-Park, Ill., and Miss Sanely Bennett of Aurora, Ill., formerly sisters of the bride. All of the attendants were in light pink chiffon street-length dresses. Sleeveless, they had high necklines draped across the front and hanging the entire length of the dresses from the V-necks in the back. Rose headdresses fastened of matching chiffon held in place full veils. The honor attendant carried Rubium lilies.

IT TAKES A PATIENT MAN to drive one of the wheat-laden trucks which have been dumping their loads at the Cargill Grain Elevator just outside Granite City this week. Sometimes as many as 50 tractor-trailer trucks have been lined up in the hot sun along half-mile road which leads to the elevator from Pontoon road.

## 300 Trucks A Day Unload Wheat At Cargill Granary

Cargill Grain Elevator just outside of Granite City is operating round-the-clock to handle what is expected to be a record wheat crop for Madison county and surrounding areas.

Close to 300 wheat-laden trucks a day have been dumping their loads at the three-million-bushel-capacity elevator, according to Arnold Schneider, manager of Cargill's St. Louis branch office.

Each of the trucks, about 85% of them tractor-trailer outfits, can carry between 700 and 150 bushels of wheat. The peak season is expected to last through August.

## Why The Bank Teller Takes Time To Cash An Endorsed Check

By ELMER A. HURRY  
Cashier — Granite City  
Trust and Savings Bank

Have you ever wondered what the bank teller is inspecting before he cashes an endorsed check? He looks at several places on both sides, then he checks some kind of a file.

Why is that?

If you're the endorser trying to cash the check, you're probably a little impatient. But you're the writer of the check . . . and the owner of the money . . . you'll be glad to learn all the things the teller inspects before he cashes your check.

First, of course, the teller looks to see if it's drawn on his own bank.

Second, he inspects to see if the check bears a "future" date or a "stale" date.

Third, he checks to see that the amount in figures agrees with the amount spelled out in words. This protects you against either your own mistakes or forgery.

Fourth, he verifies the signature of the maker, that's you. He checks your signature to make sure you actually signed this check.

By now the endorser may be getting a bit itchy . . . but the teller has more things he must check. He looks to make sure it hasn't been altered in any way. Then he makes sure there is no stop-payment order from you on this check . . . or any other kind of hold order.

NOTE: For financial assistance or banking services, you are cordially invited to consult Mr. Elmer A. Hurry, Cashier of the Granite City Trust and Savings Bank, 1909 Edison Avenue. Hours: 9:00 to 2:00 — Monday through Thursday. Friday 9:00 to 1:00 and 4:00 to 7:00. Telephone — Triangle 6-1212.

Next, he makes sure that no check you've made payable to a partnership or corporation is being cashed for an individual without a proper authorization from that firm. That's so the check you wrote actually applies toward your indebtedness to the corporation . . . and isn't going into some unauthorized pocket.

Now, he sees that all the proper signatures are on the check. That is . . . if you have a special system whereby someone else is paying your bills . . . you have given the bank a set of signatures of authorized check signers for you.

The teller declines to cash checks made payable to the estate of a deceased person unless he has authorization from the estate.

The teller identifies the man who presents the check beyond all reasonable doubt. That is, he makes sure that the man giving the check is the man you intended to have the money.

The teller also looks to see if there is a conditional endorsement. That is, if you have endorsed a check over to a man saying "pay to the order of John Jones if he completes painting the house at 1000 Main Street."

Well, the teller wants to know if this house has been painted.

I don't mean to say that all this takes more than a few seconds. And, of course, a lot of common sense is applied. If the teller knows the presenter of the check . . . then of course the process is fast as lightning. But these are the steps bank tellers are trained to take . . . to protect their depositors.

## School Children Give \$1966 To County Museum Campaign

A total of \$1966 in contributions for the new Madison County Historical Museum from the schools in the county was announced today by A. Edson Smith of East Alton, president of the Madison County Historical Society.

Smith, who is retiring superintendent of Wood River-East Alton High School, was in charge of the schools campaign in the current drive for funds to establish a permanent home for the museum operated by the society for the past 39 years in the county court house.

"We are most gratified by the cooperation of school superintendents, principals and teachers in bringing the message about the new museum to the schools, and by the students' response to the project," Smith said. "The new museum will be a permanent home for the children in a way it has never been able to do before."

"Important Contribution" "One of the primary purposes of the school campaign was to inform and interest the students and give them an opportunity to have a personal part in its establishment. We feel this purpose has been fully served; moreover, the funds contributed by the children are an important

part of the total needed for the museum."

Smith also expressed appreciation for the full cooperation of County School Supt. Wilbur R. L. Trimpe, who encouraged participation by the schools and whose office served as a clearing house for the collections.

Nearly every district in the county participated in the campaign. The students were given literature about the proposal and offered an opportunity to bring pennies, nickels or dimes to contribute toward establishment of the new museum in the 127-year-old Weir house at 113 North Main street in Edwardsville. In some cases, children had been saving up their own money for the contribution and gave more than a dollar; one prized marble was turned in, and in at least one instance, an Edwardsville youngster donated his PTA ice cream social ticket money, reporting to his mother later that he "thought the museum was more important."

Promotional stunts to publicize the project ranged from appearances of an antique auto at Edwardsville District 7 schools to building of a large replica of the Weir house as a "bank" for children to drop their coins in.

Granite City Drive In Fall Smith pointed out that the total amount from schools is not yet final. Granite City schools

preferred to conduct their campaign in the Fall, and various other schools have indicated that additional activity will result in more funds for their share in the Fall. The Madison district has a policy against solicitations in the school.

Meanwhile, Mrs. Harris Blixon of Edwardsville, treasurer of the Committee for a Madison County Historical Museum, announced the total raised thus far in the museum campaign in the county as over \$19,000, with many communities having incomplete totals and some not reporting as yet. Mrs. Harold Landolt, Alhambra chairman, reported

contributions of \$158 from business firms in Alhambra's current total of \$220.

The amounts turned in by the various school districts include: Alton Community Unit 11, \$492; from teachers and school organizations; Bethalto Unit 8, \$335; Collinsville Unit 10, \$199; East Alton Elementary 13, \$42; East Alton-Wood River High School District 14, \$331; Edwardsville Unit 7, \$200; Highland Unit 5, \$118; Roxana Unit 1, \$120; Triad Unit 2, \$127; Venice Unit 3, \$46; Wood River Elementary 15, \$153; St. Paul's Lutheran school, Troy, \$9; and Trinity Lutheran School, Edwardsville, \$10.

## Daughter Of GC Man To Be On Ted Mack Amateur Hour

The daughter of a Granite City man has recently returned from New York where she was video-taped to appear on the nationally televised Ted Mack Amateur Hour in the near future.

The girl, Cherie Graham, 13, the daughter of Carl Graham, 2805 Washington avenue, a dancer, traveled by bus to New York for a special audition June 17. She passed the audition and was taped for the show on June 21. The date of the telecast is as yet unknown.

The all-expense-paid trip to New York and the audition was a prize won by the teenager in an amateur contest held at the Bond County Fair. She has won amateur contests at the Madison County Fair and numerous other fairs.

A veteran of almost nine years of public appearances as a dancer, the girl is scheduled to appear in the St. Louis Municipal Opera July 22-28 in "Babes in Toyland" and Aug. 5-11 in "Cypriote." Last summer she was one of 25 selected from 500 applicants to appear in the Muncy Opera production of "The Wizard of Oz."

Cherie also has appeared on several area and Springfield television shows.

Not only is the young girl a talented dancer, but she is also a Girl Scout and a 4-H member. She won a top honor for sewing and modeled her scarf and skirt set at the Madison County Fair last summer. In connection with 4-H, her group won the "Share

## Fire Guts Interior Of Home In Madison

Fire attributed to an electrical short-circuit gutted the interior of a two-story frame, shingle-covered dwelling at 830 Alton avenue, Madison, at 7:45 p.m. Saturday.

The occupants, Mr. and Mrs. Homer Hollenbeck and children, were away at the time but fans were in operation, firemen said. The department listed damage to the building at \$250 and made no estimate of the loss in furniture, most of which was burned or damaged by water. Windows and plaster walls will have to be replaced.

A photo contest to encourage visitors to Illinois Beach State Park is being jointly sponsored by the Illinois Beach State Park Lodge and the Illinois Dunes and Preservation Society.

The contest is the annual Four Seasons Photography Contest to stimulate picture takers to record on film the natural beauties of Illinois Beach State Park.

There are two ten-day periods in each of the four seasons contest, with identical prizes going for both black and white and color prints and slides. First prize is \$25; second, \$15; and third, \$10. There are five \$5 honorable mentions. A grand prize of \$50 for the best black and white and \$50 for the best color prints and slides is an additional inducement for lensmen. Photographers are asked to enter one or all of the four seasons contests. The summer contest deadline for pictures and prints is Sept. 30; autumn deadline is Dec. 31; winter is March 31 and spring closes June 30. Each entry must be accompanied by an official entry blank or a reasonable facsimile. For further information write to Illinois Beach State Park Lodge, Zion.

At a meeting last week at the Executive Mansion to discuss the formation of a state arts council, Gov. Otto Kerner said: "Illinois may not be able to win out in competition with New York and Hollywood as a mass producer of the arts, but we can win as the place where the cultural frontier is alive and advancing."

"Illinois and Chicago have a rich tradition of creativity in the arts and literature. We cannot be satisfied, however, to point to a proud past. We are concerned about working toward a challenging future."

"Today, more than ever, not only the riches of the spirit, but the growth of the economy depends upon the capacity of region or a state to attract and hold a goodly number of the creative minds in science, engineering and the arts. We must establish an atmosphere conducive to the freedom of the imagination and creativity."

A special series of state merit examinations, involving a variety of positions was announced last week by Miss Madeline Myers, director of the Illinois Department of Personnel.

The examinations will cover such positions as: administrative assistant III, cod quality inspector, data processing machine supervisor, food service supervisor II, housekeeper II, insurance analyst II, prison vocational school coordinator, program manager III and rehabilitation supervisor.

Interested persons with training and experience in any of these areas should apply to the Department of Personnel, 132 State Capitol, Springfield, on or before July 10.

There are reportedly 3 1/2 million acres of land in Illinois unsuitable for agricultural crops or grazing according to a report from the Illinois Department of Agriculture. # Governor Successful With Most Proposals

(Special from Springfield)

This new unit, the Department of Public Assistance, will replace the governor approved two years ago and supports now.

"Loophole" Plugging Early in the session, the legislature also passed a bill which called "loophole plugging" bills in the sales and tax laws.

The additional income derived from these laws was figured in the 1960 budget of total revenues of \$330 million increase of total revenues from sales and use taxes, from the broadened base of these two taxes, from a hotel-motel tax and from retention of the cigarette tax.

Gov. Kerner made no secret of the fact that these loophole plugging laws helped his financial position greatly and strengthened his announcement that no new or additional taxes would be needed.

In another area, which frequently claims much of the governor's attention, he points to the administration's success in bills which affect the Department of Mental Health.

Fires of all, was the administration-sponsored bill for the revision of the Mental Health Code. This redefines provisions for care and treatment of patients and will permit outpatient treatment in new out-patient clinics to be built with funds approved in the 1960 bond issue vote in the general election.

Second is the separation of certain units in Mental Health to a new code department. The new agency is the Department of Children and Family Services and incorporates facilities and services formerly administered by Mental Health as well as several independent commissions.

"Third is the law passed which establishes a parent contribution procedure for the support of mentally ill in institutions other than state institutions. This enables parents to place a mentally ill child in a private institution for which the state will pay part of the cost.

Moreover, Dr. Francis Gerety, retiring director of Mental Health, sought a big increase in budgetary allotments for the department and eventually, the legislature passed bills to provide almost \$40 million more. The

money is to be used not only for expansion of existing patient care programs but also in the field of research.

Education Achievements Still another area in which Gov. Kerner's administration had made a big achievement is in education.

Several bills which provide about \$56 million more for various state schools have passed, all by the administration's support.

Chief among these, perhaps, is the bill which appropriates \$6,750,000 to the superintendent of public instruction to assist and encourage local school districts to develop services for gifted children.

One other major administration accomplishment is claimed in an amendment to broaden the Fair Employment Practices Commission jurisdiction to include governmental units and labor unions.

This amendment was prompted by a grievance filed against the Chicago Board of Education, but the commission later found it has no jurisdiction to process this grievance under the original law enacted in 1961.

Now, all state and municipal governments, boards of education, township boards, county boards, sanitary districts, airport authorities, etc., are covered by the FEPC.

Not All Successes The Kerner administration was not successful in all its legislative efforts however. Among its chief failures were the loss of the bill which would have raised the minimum school age from 16 to 17 years. This was opposed by Superintendent of Public Instruction Ray Papp.

Another failure was the proposal to establish another new code department — the Department of Commerce. Gov. Kerner personally advocated this in several speeches.

About half of the legislation proposed by the administration failed in effect what was called a "reform" of credit laws, also failed as did the administration request for law to authorize the opening of a state office in Washington, D. C. The last major legislative change sought by the administration and which lost was establishment of a minimum wage law of \$1.50 an hour. This was the second Kerner effort to have such a law passed. It failed also in 1961.

# Sale Of City Auto Licenses Slows Down

City Clerk A. L. Stevens reported this week a slow down in the sale of 1963-64 city auto licenses.

It was anticipated the city would sell 12,000 of the 33 windshield stickers to Granite City auto owners during the annual drive in June. However, the number sold to date stands at 12,242. Police are continuing to issue arrest tickets to Granite City motorists failing to display new stickers.

Last year, the city sold 11,709, but that was throughout the fiscal year. The city's fiscal year starts on May 1 and runs through April 30.

## ZIP-Code Mailing System Begins Today

Quad-City residents are again being reminded by area postmasters that the revolutionary new ZIP-Code mailing system begins today on a national basis.

The code number for Granite City residents who receive their mail by main post office carriers is 62040; at main office boxes, 62041; at the Kate Street station, 62042; and at Namewick station boxes, 62043.

The ZIP-Code for Madison is 62060, and the code for Venice is 62090. Area postmasters insist that mailers become accustomed to adding their code numbers to their return addresses on correspondence.

They cite this example of proper use of the codes in return addresses:

(Name) (Street Number) (Town), (State) (ZIP-Code)

The system was devised to speed mail delivery and to reduce the probability of mis-letters.

They are Rev. Charles P. Mulcrone, assistant pastor of St. Joseph's Church, and Rev. John Barrett, assistant pastor of Sacred Heart Church.

Father Mulcrone is being transferred to St. Mary's Church in Paris as assistant pastor, and Father Barrett will be assistant pastor at St. Patrick's Church, Springfield.

Their successors will be Rev. Thomas Sullivan, now at Quincy, as assistant at St. Joseph's Church, and Rev. Edward Groesch, now at Paris, at Sacred Heart Church.

Three former assistants at Sacred Heart also are being reassigned. They are Rev. William Pauly, who was named pastor at Lillyville; Rev. Martin O'Hara, who will be assistant to Rt. Rev. Magr. He will return here for a five-day stay in August before reporting to Paris. A dinner party in his honor was held Thursday by members of St. Joseph's Confraternity of Christian Doctrine at the home of Edward Boyer, 2230 State street.

Father Sullivan is due to report here July 30. He will take over Father Mulcrone's duties and will attend St. Louis University to obtain a degree in social service.

### Committee Says County Jail Not Neglected

The county jail committee has reacted strongly to recent criticisms by grand juries on conditions at the jail and showed that \$53,651 has been spent since 1959 to keep the jail in operating condition.

William Bryant, assistant supervisor of Wood River township and committee chairman, compiled a list of figures to show at a meeting last week that the jail has not been neglected.

Recent grand juries have recommended that a new jail building be erected, with separate quarters for detention of juveniles.

Bryant estimated that a new building would cost about \$2,500,000.

One section of the current building is 100 years old and another section is 80 years old.

A survey of the needs at the jail is being made by a St. Louis jail supply firm which is expected to report soon. The firm is expected to provide estimated costs for a security cell, refinishing of locks, several new locks and screens to protect light bulbs against damage by prisoners.

Bryant charged that "only one side of the jail story has been presented so far."

He said the county spent \$4047 in 1959 for cell doors, cots and tables, while costs in 1960 included \$14,805 for plumbing, \$2065 for painting and \$1889 for concrete work. Expenses in 1961 included \$6519 for plumbing and \$2687 for electrical repairs and new wiring.

The 1962 costs included \$1306 for maintenance and repairs, and so far this year, \$6221 has been spent, including \$637 for maintenance and repairs, \$797 for painting and repainting the sheriff's living quarters, \$2166 for plumbing, \$156 for a steel door for the office, \$2325 for remodeling and \$736 for office furniture.

Improvements underway or proposed include resurfacing of the jail driveway and parking lot and replacement and repairs to defective locks on cell doors.

Sheriff Barney Frandorf, who attended the meeting, is to compile a list of improvements for the committee. Bryant said improvements and corrective measures will be conducted as funds become available.

Others at the meeting included George Ramach, chief deputy sheriff, and Jay Maurer of Venice, a member of the committee.

Miss Bischoff graduates

Miss Carol Sue Bischoff was graduated from Miss Hickey's School for Secretaries Saturday in exercises held at the Chase-Park Plaza Hotel, St. Louis.

## Tax Assessor Cruse Continues Conferences

Granite City Township Assessor Von Dee Cruse is holding property valuation conferences this week with property in four Granite City subdivisions.

The assessor is conferring with residents with property in Bellmore, Bellemore Village Addition One, Cloverview Addition One, Cloverview Addition Two, Eight and Pleasant Acres Additions One to Four.

Cruse, who has been holding such conferences with area residents for over a month, is conducting re-appraisals where necessary.

The conference hours this week are from 9 a.m. to 5 p.m. Monday through Friday and Tuesday evenings at seven o'clock. His office is located at 1004a Delmar avenue.

Cruse once again emphasized that the present conferences deal only with 1963 quadrennial assessment figures and have nothing to do with 1962 tax bills now being sent to property owners.

## Seebold Files 2 Civil Suits Against Builder

Two civil suits were filed Friday by the A. H. Seebold Co. against the Tom Studebaker Construction Co. in Madison county circuit court at Edwardsville.

In one, Seebold claims that Studebaker owes \$8489 for construction materials and truck services in the construction of the Coolidge junior high school addition. Studebaker was awarded the contract by the Granite City school district on April 12, 1962.

In the other Seebold claims Studebaker owes \$218 for materials and services in the construction of Roxana school addition in a contract awarded by the Roxana school district on March 19, 1962.

In both cases, Seebold asks that the court determine the balance due, set a 5% interest rate, place a lien on payments due Studebaker by the school districts and order payment as soon as possible.

The Studebaker firms has suspended operations pending an audit.

## Flurry Of Voting In Closing Days Of Legislature

All four local members of the Illinois General Assembly took part in the annual flurry of voting before the June 28 assembly adjournment, in Springfield last week.

Five major bills were victims of defeat in the Assembly last week as its members raced the clock to clear the calendars before adjournment.

In the Senate, Paul Simon (D-Troy) voted with a slim majority to defeat a controversial bill that would legalize wire tapping by law enforcement officers in the state. The bill, defeated by a narrow 19 to 15 vote, would have permitted police, upon a court order issued by a circuit court judge, to obtain evidence of certain crimes for use in criminal trials.

In other Senate action, a bill to allow state employees to join or form unions was defeated by a vote of 23 to 20, even though the bill further stated that such employees had no right to strike. Sen. Simon voted in favor of the measure.

Tax bills sponsored by Chicago Mayor Richard Daley were twice in Senate committees and on the floor by a vote of 26 to 20. Simon also voted for these bills.

Before moving to the Senate, the defeated Daley bills were approved in the House. Local representatives Lloyd Harris (D-Granite City) and LeRoy Kennedy (D-Alton) voted in favor of the bills to allow the city of Chicago to increase its sales tax while Rep. Ralph T. Smith (R-Alton) opposed it.

Under major assembly action, the defeated Daley bill, 86 to 68 of a bill to prohibit certain practices of discrimination in housing accommodations because of race, creed, color, national origin or ancestry, Harris and Kennedy voted for the bill; Smith voted against it.

Finally, an attempt to create a crime of syndicate gambling and to make it a felony, lost in the House 85 to 57 with Rep. Smith voting for it and Rep. Harris voting against it. Rep. Kennedy did not vote on the bill.
